

Abstract of the Invention

The present invention relates to compounds of Formula (I)

5

as antagonists of calcitonin gene-related peptide receptors (“CGRP-receptor”),
 pharmaceutical compositions comprising them, methods for identifying them,
 methods of treatment using them and their use in therapy for treatment of neurogenic
 vasodilation, neurogenic inflammation, migraine and other headaches, thermal injury,
 10 circulatory shock, flushing associated with menopause, airway inflammatory
 diseases, such as asthma and chronic obstructive pulmonary disease (COPD), and
 other conditions the treatment of which can be effected by the antagonism of CGRP-
 receptors.
